

Great News! We have a new CE course pending approval in your state!

**Listing and selling HUD Properties....no longer a boring, low profit business!**

As of June 2010 The Department of Housing and Urban Development (HUD) revamped the way they manage and sell the housing inventory acquired by default and foreclosure of FHA insured properties. With HUD's inventory up 20% from typical levels (current inventory estimated at 44,000 properties) and more lucrative broker compensation structures in place, excellent opportunity exists!

The CE Shop has created a new CE course that will familiarize agents and brokers with HUD's new program and qualify them to be eligible for listings.

As of August 1<sup>st</sup> 2010 the HUD contracted asset managers will actively be seeking agents to list and sell their properties. This new online CE course is a pre-requisite for broker eligibility with a growing number of HUD Asset Managers.

Give your members/agents the competitive edge with this new CE course in this newly revitalized segment of the market.
